

QUATRO

AF2000H

Industrial Grade Air Purifier

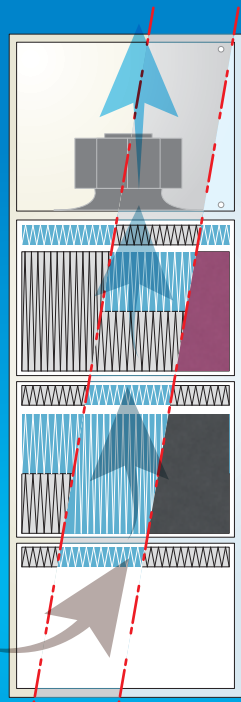

Designed to handle high concentrations of chemicals, gases, odors, particles and biological contaminants, the AF2000H delivers superior air quality for virtually any application that requires removal of chemicals, vapors and particles directly at the source.

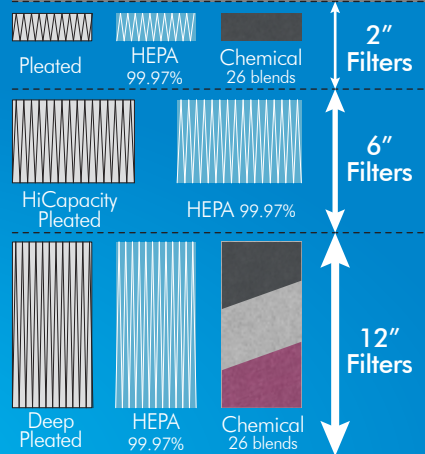

NOTE: Mounting hardware and installation services are not included with the unit.

MULTI-STAGE FILTRATION SYSTEM

The 5-stage filtration system offers enhanced protection against a wide range of airborne pollutants including chemical compounds, gases, odors and particles.

CONFIGURATIONS**

Dimensions: H x W x D
68 x 24 x 26 (in), 350 lbs
180 x 61 x 66 (cm), 159 kg

Airflow (nominal):
1000 CFM (472 liters/s)

HEPA filter:
99.97% of particles down to 0.3 micron

Chemical filter:
up to 240 lbs (110 kg); 26 blends available

UV Light available (certain configurations)

Power:
120V, 60Hz, 4A / 230V, 50Hz, 2A

Sound levels: < 54dba at low speed

Cabinet: Heavy Gauge Welded Steel

Options: High air flow configurations; various diameter inlet/discharge collars for ducting, pressure gauges, custom filter sequences, OEM branding, variable speed control, audible alarms, visual alarms.
